

ascendispharma A/S is an international company with offices in Copenhagen, Germany and the US. We are building an integrated biopharmaceutical company to advance our pipeline of long-acting prodrug therapies. Employing our proprietary TransCon technology platform, we are generating therapeutics with best-in-class profiles that address large markets with significant unmet medical needs. In this regard, we have a diversified and balanced high-value product pipeline, which includes internal programs and partnerships with market leaders.

Join us at our [research site](#) as:

Research Scientist (PhD) – Organic Chemistry (f/m)

based in Heidelberg/Germany

Your responsibilities:

- You synthesize and characterize small molecules, peptides, prodrugs and drug conjugates
- You are responsible for synthesis planning (new synthetic routes and optimization) and delivery of compounds according to time lines and quality demands
- You develop and evaluate new technologies and support the growth of our technology platform
- You write scientific reports and patent related documents
- You participate in discussions and communicate your results in multidisciplinary R&D project teams
- You prepare presentations and communicate results to external partners
- You collaborate with and may guide laboratory technicians

Your profile:

- Excellent doctoral degree in organic chemistry, post-doctoral experience appreciated
- High level of creativity and independence in designing synthetic routes and solving complex problems
- High motivation and flexibility to expand existing skills and knowledge
- Strive to reach common goals in multi-disciplinary teams
- Broad knowledge of preparative organic synthesis and potentially peptide chemistry
- Solid understanding of analytical methods (HPLC, MS, etc.)
- Excellent command of written and spoken English, good working knowledge of German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive additional benefits in an international company.
