

ascendispharma is building an integrated biopharmaceutical company to advance its pipeline of long-acting prodrug therapies. To achieve this, we are creating strategic teams of highly experienced people across Europe and the United States to conduct our operations. In addition to experience and talent, we seek individuals who are flexible and highly resourceful. We also believe that by maintaining a lean organization, we obtain a high level of innovation and at the same time facilitate rapid product development from discovery stage to clinical development to commercialization. Take charge of your career and grow in new directions by exploring opportunities within a growing Life Sciences Company:

Scientist (PhD, f/m) – Organic & Peptide Chemistry

based in Heidelberg/Germany

In this position you will be member of a Research & Development Group and part of project related teams of 4-6 highly specialized scientists.

Your responsibilities:

- Synthesis and characterization of peptides, peptide polymer conjugates and biologically active substances
- Preparative synthesis of organic substances
- Collaboration with and guidance of laboratory assistants
- Writing of scientific reports and patent-related documents
- Preparing presentations and communicating results in group meetings and with collaboration partners

Your profile:

- Excellent graduate degree in chemistry, post-doctoral experience appreciated
- Experience in peptide chemistry (synthesis, purification, analysis)
- Broad knowledge of preparative organic synthesis
- Solid understanding of modern analytical methods (LC, MS, HPLC)
- Fluent English and German, spoken and written

If you want to be part of this team, we offer you an exciting and challenging position in an entrepreneurial and international company.
