

ascendis pharma A/S is building an integrated biopharmaceutical company to advance its pipeline of long-acting prodrug therapies. To achieve this, we are creating strategic teams of highly experienced people across Europe and the United States to conduct our operations. In addition to experience and talent, we seek individuals who are flexible and highly resourceful. We also believe that by maintaining a lean organization, we obtain a high level of innovation and at the same time facilitate rapid product development from discovery stage to clinical development to commercialization. Take charge of your career and grow in new directions by exploring opportunities within a growing Life Sciences Company and join us at our research site as:

Analytical Research Scientist (PhD) (f/m)

based in Heidelberg/Germany

Your responsibilities:

- You characterize, identify, quantify and assess the purity of drug polymer conjugates, peptides, proteins, and small molecules
- You are responsible for planning of new assays to characterize the properties of starting materials, intermediates, and drug substances
- You create and evaluate new analytical methods as starting point for the analytical development
- You troubleshoot analytical procedures and instrumentation
- You write scientific protocols and reports
- You participate in discussions and communicate your results in multidisciplinary project teams
- You prepare presentations and communicate results to external partners
- You collaborate with laboratory technicians

Your profile:

- Excellent doctoral degree in a relevant life science, post-doctoral experience appreciated
- High level of creativity and independence in developing new analytical methods and solving complex problems
- High motivation and flexibility to expand existing skills and knowledge
- Strive to reach common goals in multi-disciplinary teams
- Broad knowledge and hands on experience of analytical methods (i.e. HPLC, MS)
- Excellent command of written and spoken English, good working knowledge of German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive additional benefits in an entrepreneurial and international company.
