

IT System Manager

Would you like to be the one who create and run system management for our soon-to-become new ERP system and be part a fast growing biotech company?

Then we would love to have you onboard Ascendis Pharma Global IT, IT Application Services team and invite you to become part of a very exciting journey. **As IT System Manager**, you will be responsible for building and running operation and maintenance for our new ERP system Dynamics 365 which is being implemented as we speak. You will support the Product Supply and Finance business units and enable Ascendis Pharma to efficiently run and expand the application landscape in an outsourced environment.

You will join a company where we constantly develop and grow our business where every person count. Through your contribution and collaboration, you will have good development opportunities in a very flexible environment where “the way we do things here” is open for discussion.

Your main responsibilities are:

- Ensure a successful handover to maintenance in collaboration with relevant stakeholders
- Act as Single Point of Contact
- Business requirements specification and expectation alignment
- Change & Release Management (including contribute to upgrades etc.)
- User Access management and License Management
- Ensuring compliance in relation to GxP and SOX
- Super user and end user training and other OCM activities
- Functional support
- Communication and collaboration closely with the key stakeholders
- Vendor Management, following up on services and deliverables according to relevant agreements
- Road maps for IT systems
- Supporting system management for other applications

Ideally, you hold a Master’s Degree combined with at least 5 years of experience in system management, application management from the pharmaceutical/biotech industry maybe as Application/System Manager, Service Delivery Manager or similar.

The following qualifications are desirable:

- Proven track record in managing applications/platforms and running projects
- Knowledge and experience with Dynamics 365 with focus on Product Supply/Manufacturing and Finance
- Business consulting skills and a robust business stakeholder manager
- Experience with vendor management and contracting with external service providers
- Been working with life science/pharma information systems

It is an advantage if you have specific knowledge about Dynamics 365 or AX platform and one or more key business areas/processes within pharmaceutical development (hopefully Operations/Supply Chain and Finance).

You are proficient in English at a professional level, both written and spoken.

You work in a structured way and communicate well with many types of internal and external stakeholders. Your approach is entrepreneurial and you enjoy finding solutions that meet the business needs. Drive and initiative are part of your personality and you are comfortable with working in a dynamic environment.

Last but not least, you have a good sense of humor and enjoy working cross-cultural.

Ascendis Pharma offers you an exciting and challenging position in an entrepreneurial and international company with a short line of command. You will be involved in activities that are central to Ascendis Pharma's strategy and work with highly skilled and experienced colleagues on advancing an exciting product pipeline.

The culture is informal, team oriented and fast moving – and sometimes not so you will also need to be patient. Micro management is a city we never heard of and you should also expect to take responsibility and act on your own. Company benefits include a fair salary and pension scheme with health insurance and a lot of in house social and a nice canteen.

Travelling: Approx. 10-20 days/year.

Place of work: Ascendis Pharma resides in a wonderful office facility in Tuborg Havn in Hellerup with a view of the harbor, the canals, and the sea. We also have facilities in Heidelberg, Germany and Palo Alto, U.S.A.

For more details about the job or the company, please contact Lene Nilsson on M +45 26 40 52 40 or lni@ascendispharma.com. All applications must be in English and are treated confidentially.
