

ascendis pharma is a fast-growing biopharmaceutical company with offices in Denmark, Germany, and the United States. We are applying our TransCon technology to build a leading, fully integrated biopharmaceutical company with an independent pipeline of long-acting prodrug therapies that address unmet needs. In addition to our current pipeline of three rare disease endocrinology candidates, we have established oncology as our second therapeutic area of focus. Ascendis is a dynamic place for employees to grow and develop their skills. As a member of our team, you can influence the direction of the company and help us create new therapies with potential for best-in-class efficacy, safety, and/or convenience. Take charge of your career by exploring opportunities within a growing Life Sciences Company and join us at our research site in Heidelberg/Germany as:

Bioanalyst (m/f/d) in Research & Development

based in Heidelberg/Germany

Your Responsibilities:

- Development and application of immunoassays and new bioanalytical methods in the field of pharmacokinetics
- Characterization of proteins and protein conjugates with regards to biological activity and stability
- Development and application of chromatographic and mass spectrometric methods
- Presentation and communication of results in multidisciplinary project teams
- Preparation of scientific reports and patent examples
- Maintenance of lab instruments
- Literature search

Your Profile:

- Very good Master's degree in bioanalytics, molecular biology, life sciences or closely related studies
- Proven practical experience in bioanalytical methods (ELISA, SDS-PAGE, Western Blot, FACS, SPR)
- Hands-on experience with cell culture techniques appreciated
- Professional experience in an industrial pharmaceutical environment welcome
- HPLC and mass spectrometry knowledge appreciated
- Team building mentality, distinct interest in interdisciplinary research
- Independent, structured, and diligent work and documentation style
- Excellent command of written and spoken English, good working knowledge of German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive additional benefits in an entrepreneurial and international life science company.
