

ascendis pharma is a fast-growing biopharmaceutical company with offices in Denmark, Germany, and the United States. We are applying our TransCon technology to build a leading, fully integrated biopharmaceutical company with an independent pipeline of long-acting prodrug therapies that address unmet needs. In addition to our current pipeline of three rare disease endocrinology candidates, we have established oncology as our second therapeutic area of focus. Ascendis is a dynamic place for employees to grow and develop their skills. As a member of our team, you can influence the direction of the company and help us create new therapies with potential for best-in-class efficacy, safety, and/or convenience. Take charge of your career by exploring opportunities within a growing Life Sciences Company and join us at our research site in Heidelberg/Germany as:

IT Administrator (m/f/d)

Based in Heidelberg/Germany

You will join Ascendis Pharma Global IT and become part of a very exciting journey. You will be part of the Global IT Operations at Ascendis Pharma. You will have excellent development opportunities in a very flexible environment where “the way we do things here” is open for discussion.

Your responsibilities:

- 1st and 2nd level IT support and troubleshooting in office and laboratory environment
- Maintenance of servers, workstations, network, A/V and telecommunication systems
- Installation and commissioning of hard-/software in both office and lab setups
- Detection and resolution of IT issues according to business needs
- Support of IT-compliance processes and documentation, continuous improvements of our IT services
- IT Asset and Change Management (procurement, deployment, lifecycle, inventory, licensing, servicing, etc.)
- IT onboarding and training
- Coordination with external partners

Your qualifications:

- Completed studies in (business) information technology or comparable education
- Desirably, 3-5 years of experience working in a process-controlled environment, including laboratory equipment
- Profound knowledge of Microsoft on-premise and cloud solutions
- Good understanding of key infrastructure technologies such as networking, directory services, storage, virtualization, etc.
- Structured, diligent and self-dependent workstyle
- Outstanding problem-solving abilities
- Keen interest in further professional development
- Very good oral and written skills of English and German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive benefits in an international company.
