

ascendis pharma is a fast-growing biopharmaceutical company with offices in Denmark, Germany, and the United States. We are applying our TransCon technology to build a leading, fully integrated biopharmaceutical company with an independent pipeline of long-acting prodrug therapies that address unmet needs. In addition to our current pipeline of three rare disease endocrinology candidates, we have established oncology as our second therapeutic area of focus. Ascendis is a dynamic place for employees to grow and develop their skills. As a member of our team, you can influence the direction of the company and help us create new therapies with potential for best-in-class efficacy, safety, and/or convenience. Take charge of your career by exploring opportunities within a growing Life Sciences Company and join us at our research site in Heidelberg/Germany as:

IT Engineer (m/f/d) Based in Heidelberg/Germany

You will join Ascendis Pharma Global IT and become part of a very exciting journey. You will be part of the Global IT Operations at Ascendis Pharma. You will have excellent development opportunities in a very flexible environment where “the way we do things here” is open for discussion.

Your responsibilities:

- 2nd and 3rd level IT support and troubleshooting in office and laboratory environment
- Technical responsibility for highly available IT operations at our branch in Heidelberg
- Responsibility for the design, provisioning and maintenance of the local IT resources
- Ensure the functioning of an efficient and performing local IT-infrastructure as well as the continuous optimization of IT service and processes
- Contribute to the development and implementation of global IT strategies with regards to compliance processes, data integrity, IT security and life-cycle management
- Conceptualizing, steering and documentation of IT projects and tasks
- Supervision of the IT onboarding and training of our local employees
- Close collaboration with the Global IT department in other locations
- Ensuring good relationships with our existing and new external IT partners

Your qualifications:

- Master's degree in Information technology or comparable education
- Desirably, 5-7 years of experience working in a biotech, pharmaceutical company or consultancy catering to the pharmaceutical industry or other regulated environment
- Deep knowledge of Microsoft Windows operating systems and technologies; networking and systems integration; backup and recovery operations; systems security and auditing
- Good knowledge in third-party IT solutions for virtualization, backup, network control, phone and A/V systems, monitoring, helpdesk, asset management and printing solutions
- Holistic view mindset, sound hands-on mentality, excellent communication skills
- Keen interest in further professional development
- Excellent business fluent English and German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive benefits in an international company.
