

ascendis pharma is a fast-growing biopharmaceutical company with offices in Denmark, Germany, and the United States. We are applying our TransCon technology to build a leading, fully integrated biopharmaceutical company with an independent pipeline of long-acting prodrug therapies that address unmet needs. In addition to our current pipeline of three rare disease endocrinology candidates, we have established oncology as our second therapeutic area of focus. Ascendis is a dynamic place for employees to grow and develop their skills. As a member of our team, you can influence the direction of the company and help us create new therapies with potential for best-in-class efficacy, safety, and/or convenience. Take charge of your career by exploring opportunities within a growing Life Sciences Company and join us at our research site in Heidelberg/Germany as:

Scientist - Biochemistry (f/m/d)

based in Heidelberg/Germany

Your Responsibilities:

- Development of synthesis and purification processes for protein conjugates
- Development and application of chromatographic and mass spectrometric methods
- Characterization of protein conjugates with regards to protein release, stability, and activity
- Development and evaluation of new technologies to expand our technology platform
- Presentation and communication of results in multidisciplinary project teams
- Preparation of scientific reports and patent examples
- Literature research

Your Profile:

- Outstanding doctoral degree in biochemistry or closely related disciplines
- Sound theoretical and practical knowledge of protein chemistry and protein analytics (SEC, IEC, SDS-PAGE, RP-HPLC, bioconjugation, TFF)
- Proven experience with Äkta/Agilent systems
- Knowledge of protein mass spectrometry
- High level of creativity in designing synthetic routes towards complex protein conjugates
- Team building mentality, distinct interest in interdisciplinary research
- Independent and structured working style
- Excellent command of written and spoken English, good working knowledge of German

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive additional benefits in an entrepreneurial and international life science company.
