

ascendis pharma A/S is an international company with offices in Denmark, Germany and the United States. We are building an integrated biopharmaceutical company to advance our pipeline of long-acting prodrug therapies. Employing our proprietary TransCon technology platform, we are generating therapeutics with best-in-class profiles that address large markets with significant unmet medical needs. In this regard, we have a diversified and balanced high-value product pipeline, which includes internal programs and partnerships with market leaders. Take charge of your career and join us at our research site in Heidelberg/Germany as:

Associate Data Integrity Scientist (f/m)

based in Heidelberg, Germany

Your responsibilities:

- Reviewing and analyzing data generated by our scientific teams
- Reviewing, defining, and writing of analysis plans, general procedures and reports
- Monitoring data and ensuring data integrity within the research site
- Performing and/or supporting investigations within our Data Integrity team
- Driving quality improvements by use of available data and statistics

Your profile:

- Master of Science in chemistry or other related life science discipline with 1-3 years' experience in a biotech research environment or Bachelor of Science in chemistry, education as Chemical Engineer, CTA or equivalent with 3+ years of professional experience
- Basic expertise in analytical method validation, preferably according to GMP and/or GLP and/or transfer and relevant regulatory guidelines (i.e. ICH, FDA, EMEA)
- Good knowledge of the relevant scientific principles and analytical statistics
- Good command of English and proficiency with IT solutions

If you want to be part of our team, we offer you an exciting and challenging full-time position with attractive additional benefits in an entrepreneurial and international company.
